Mrs. Mary Stillwell, widow of Nicholas R. Stillwell of Gravesend, L. I., passed away at the home of her daughter, Mrs. Alfred M. Voorhees in Gales Ferry on Sunday morning at 9 o'clock in the 84th year of her age. Mrs. Stillwell was a native of Gravesend and had made that place her home until three years ago, when she removed with her daughter's family to Gales Ferry. Mrs. Stillwell was a member of the Dutch Reformed church at Gravesend. WATER FOR STATE SANATORIUM

No Action Taken by Water Board for Extension of 1800 Feet Outside City—Favorably Disposed To Do All They Can.

For the purpose of learning the situation with regard to the securing of city water for the city tuberculosis sanatorium at the Post place, when completed, some of the tuberculosis commissioners will be here Thursday, and Supt. J. J. Corkey will accompany them to the site and view the premises and the section through which the pipe will have to be laid.

Favorably Disposed. The main now extends to Bushnell place, in West Thames street, and it would mean the extension of the main a distance of 1,800 feet to the Post place. It is understood that the sanatorium will want the city water, but the expense of extending the main to the Post place will be considerable, and in addition to that it will be taking the water out of the city limits. The board of water commissioners has taken no action in regard to the extension, but it is understood that they feel disposed to do all they can in behalf of the institution. As far as known the sanatorium would be the only customer on the long extension, and but very few others could be served with such a line.

The amount of water which would be used would not be sufficiently great to cause any embarrassment, and the new reservoir working more customers would be desired, but expense will be a big item, and then it is said the board has no right to go outside the city line, though it has been done on the line to Bean Hill, and at Thamesville the main place is some distance beyond the city line.

One girl, Margaret Pilsen, alleges that Mr. Smith struck her.

A conference will be held this morning at 9 o'clock. The factory employs 700 hands, and it is said there is danger of a sympathetic strike unless the girls gain redress. Some of the girls also took occasion to complain of their wages. They claim they have to work from 6.45 to 11.15 a. m. and from 12.50 to 6.10 p. m. at the rate of \$4 per week.

HYOMEL (pronounce it High-o-mel) is guaranteed by The Lee & Osgood Co. to end catarrh, asthma, bronchitis, coughs, colds and croup, or money back.
